Acknowledgements

Presentations: Part of this study was presented at the Canadian Psychological Association annual convention in Victoria, British Columbia on June 10th, 2016 and a second was presented at the annual conference of the Canadian Society for Psychomotor Learning and Sport Psychology in October 2017.

Funding: This research was supported by the Social Sciences and Humanities Research Council of Canada (SSHRC 430-2014-00168). Special thank you to the social integration team of Moelle Épinière et Motricité Québec for their help across all phases of the study, Jessica Conti and Keryn Chemtob for helping with recruitment and Spinal Cord Injury BC peer mentors for their insights on the interpretation of the results.
