This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- the efficiency of the attack strategies changed using binary or weighted measures.
- removing nodes according to weighted rank produced the higher damage.
- adopting binary or weighted measure changed the efficacy of the attack strategy.
- to find the best attack strategy, it is necessary to account the weight of the links.
