This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Delay at the customers as economic loss for online retailers
- How companies can strategically set their return window as to maximize their profit
- Competitive advantage from multiple looping of returns
- How product aging affects profit and the choice of refurbishment versus resale in secondary markets
- Strong connection between analytical model and practice
