This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We consider a two-dimensional extended warranty with PM for repairable deteriorating products.
- Different product utilization rates have different effects on product deterioration.
- Classifying customers based on product utilization is important.
- Offering different customers with different PM policies can effectively reduce the warranty cost.
