This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Real distribution network of agricultural product is considered.

Dynamic model of product flow and price change is suggested.

Effect of production fluctuation is studied.

The structure of the distribution network is important to understand price changes.
