This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### Highlights

- An orthogonal polynomial kernel function is proposed for SVR model.
- An iteration scheme is introduced to optimize the proposed kernel function.
- Sobol' indices are obtained by post-processing the coefficients of the SVR model.
- The proposed method is efficient for complex problems.
