This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights of the paper

- An in-depth systematic literature review is conducted using the published literature since the introduction of DDS
- Based on the SLR 11 basic categories of obstacles and the corresponding research challenges have been identified
- For each category current solutions are discussed providing a vision for further research.
