This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Development and Feasibility of a Group Cognitive-Behavioral Therapy for Fear of Cancer Recurrence

Josée Savard, *Université Laval, CHU de Québec-Université Laval Research Center, Université Laval Cancer Research Centre*

Marie-Hélène Savard, *CHU de Québec-Université Laval Research Center, Université Laval Cancer Research Centre*

Aude Caplette-Gingras, *CHU de Québec-Université Laval Research Center, Centre Hospitalier Universitaire de Québec-Université Laval*

Lucie Casault, *Centre Hospitalier Universitaire de Québec-Université Laval*

Caroline Camateros, *Université Laval, Centre Hospitalier Universitaire de Québec-Université Laval*

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

The authors wish to acknowledge the important contribution of Marie-Solange Bernatchez, Jessica Julien, Louis-Philippe Marion, and Stéphanie Hamel, who were involved in organizing the group sessions, the assessment of the participants and the data entry, as well as the patients who joined the group intervention.
