Please cite this article as: Tim Lohse, Sven A. Simon, Kai A. Konrad, Deception under Time Pressure: Conscious Decision or a Problem of Awareness?, *Journal of Economic Behavior and Organization* (2017), <https://doi.org/10.1016/j.jebo.2017.11.026>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### Highlights

- We experimentally investigate the role of the time dimension for deceptive behavior.
- We find significantly less dishonest reports under time pressure.
- Our design requires subjects to become aware of the misreporting opportunity.
- Time pressure decreases this awareness.
- When controlling for awareness we find no impact of time pressure on deception.
