This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Therapist-Reported Features of Exposure Tasks That Predict Differential Treatment Outcome for Youth With Anxiety

RH: Exposure Features That Predict Outcome

Tara S. Peris, PhD, Nicole E. Caporino, PhD, Sarah O'Rourke, PhD, Philip C. Kendall, PhD, John T. Walkup, MD, Anna Marie Albano, PhD, R. Lindsey Bergman, PhD, James T. McCracken, MD, Boris Birmaher, MD, Golda S. Ginsburg, PhD, Dara Sakolsky, MD, PhD, John Piacentini, PhD, Scott Compton, PhD

This article is discussed in an editorial by Dr. Abbe Garcia on page xx.

Clinical guidance is available at the end of this article.

Accepted October 3, 2017

This article was reviewed under and accepted by Ad Hoc Editor Guido K.W. Frank, MD.

Drs. Peris, Piacentini, Bergman, and McCracken are with the UCLA Semel Institute for Neuroscience and Human Behavior, Los Angeles, CA. Dr. Caporino is with American University, Washington, DC. Drs. O'Rourke and Compton are with Duke University Medical Center, Durham, NC. Dr. Kendall is with Temple University, Philadelphia, PA. Dr. Albano is with the New York State Psychiatric Institute–Columbia University Medical Center, New York. Dr. Walkup is with Weill Cornell Medical College, New York. Drs. Birmaher and Sakolsky are with the Western Psychiatric Institute and Clinic–University of Pittsburgh Medical Center, Pittsburgh. Dr. Ginsburg is with the University of Connecticut Health Center, Farmington.

This research was supported by grants from the National Institute of Mental Health (U01 MH064089 to Dr. Walkup; U01 MH64092 to Dr. Albano; U01 MH64003 to Dr. Birmaher; U01 MH63747 to Dr. Kendall; U01 MH64107 to Dr. March; U01 MH64088 to Dr. Piacentini; and U01 MH064003 to Dr. Compton). Sertraline and matching placebo were supplied free of charge by Pfizer.

Dr. Compton served as the statistical expert for this research.

The authors gratefully acknowledge the children and families who participated in this research.

Disclosure: Dr. Peris has received research funding from the National Institute of Mental Health and the Society of Clinical Child and Adolescent Psychology and book royalties from Oxford University Press. Dr. O'Rourke has received funding from Mursion Inc., the National Institute of Mental Health, NC GlaxoSmithKline Foundation, and the North Carolina Sickle Cell Syndrome Program. Dr. Kendall has received research support from the National Institute of Mental Health.
