

## Accepted Manuscript

Does improvement in maternal attachment representations predict greater maternal sensitivity, child attachment security and lower rates of relapse to substance use? A second test of Mothering from the Inside Out treatment mechanisms

Nancy E. Suchman, Cindy DeCoste, Jessica L. Borelli, Thomas J. McMahon

PII: S0740-5472(17)30375-6  
DOI: doi:[10.1016/j.jsat.2017.11.006](https://doi.org/10.1016/j.jsat.2017.11.006)  
Reference: SAT 7663

To appear in:

Received date: 18 August 2017  
Revised date: 15 November 2017  
Accepted date: 17 November 2017

Please cite this article as: Nancy E. Suchman, Cindy DeCoste, Jessica L. Borelli, Thomas J. McMahon , Does improvement in maternal attachment representations predict greater maternal sensitivity, child attachment security and lower rates of relapse to substance use? A second test of Mothering from the Inside Out treatment mechanisms. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Sat*(2017), doi:[10.1016/j.jsat.2017.11.006](https://doi.org/10.1016/j.jsat.2017.11.006)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Does improvement in maternal attachment representations predict greater maternal sensitivity, child attachment security and lower rates of relapse to substance use?**

**A second test of *Mothering from the Inside Out* treatment mechanisms**
