This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prefrontal structure varies as function of pain symptoms in patients with Chronic Fatigue Syndrome.

Short Title: Prefrontal structure in chronic fatigue syndrome

Marieke E. van der Schaaf^{1,2}, Floris P. De Lange², Iris C. Schmits¹, Dirk E.M. Geurts^{2,5,6}, Karin Roelofs¹, Jos W.M. van der Meer⁴, Ivan Toni^{*1}, Hans Knoop^{*1,3}
