Title: Oxytocin reduces amygdala responses during threat approach

Authors: Sina Radke, Inge Volman, Idil Kokal, Karin Roelofs, Ellen R.A. de Bruijn, Ivan Toni

PII: S0306-4530(16)30781-8
DOI: <http://dx.doi.org/doi:10.1016/j.psyneuen.2017.02.028>
Reference: PNEC 3562

To appear in:

Received date: 10-10-2016
Revised date: 30-1-2017
Accepted date: 27-2-2017

Please cite this article as: Radke, Sina, Volman, Inge, Kokal, Idil, Roelofs, Karin, de Bruijn, Ellen R.A., Toni, Ivan, Oxytocin reduces amygdala responses during threat approach. *Psychoneuroendocrinology* <http://dx.doi.org/10.1016/j.psyneuen.2017.02.028>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Oxytocin reduces amygdala responses during threat approach
