This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

Individuals in commitment relationship engaged in OSAs.

Men scored a higher prevalence and frequency of OSAs than women.

Lower relationship quality motivates individuals in relationship to OSAs.

Variables influencing offline infidelity may also influence online infidelity.
