This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# A Spin Exchange Model for Singlet Fission

*Tomoaki Yago,\* and Masanobu Wakasa*

Department of Chemistry, Graduate School of Science and Engineering, Saitama University, 255 Shimo-ohkubo, Sakura-ku, Saitama 338-8570, Japan

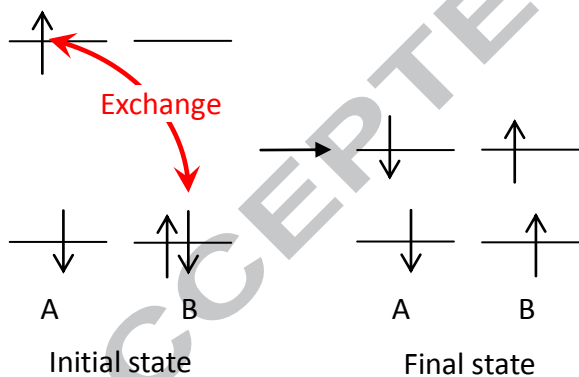

## Highlights

We propose a spin exchange model for singlet fission.

A necessary condition for spin exchange is a variation in exchange interactions.

The spin exchange model can be also adapted to triplet fusion and triplet energy transfer.
