This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Gender differences in the STEM disciplines are widespread in most OECD countries.
- We investigate the gender gap in maths test scores in Italy.
- Girls systematically underperform boys, and the gap increases with children's age.
- Boys perform better than girls even when conditioning on prior scores.
- The gap is small at low percentiles of the test scores' distribution, but large at the top.
