

Accepted Manuscript

A density based link clustering algorithm for overlapping community detection in networks

Xu Zhou, Yanheng Liu, Jian Wang, Chun Li

PII: S0378-4371(17)30550-2
DOI: <http://dx.doi.org/10.1016/j.physa.2017.05.032>
Reference: PHYSICA 18318

To appear in: *Physica A*

Received date: 5 January 2017
Revised date: 25 May 2017

Please cite this article as: X. Zhou, et al., A density based link clustering algorithm for overlapping community detection in networks, *Physica A* (2017), <http://dx.doi.org/10.1016/j.physa.2017.05.032>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

*Highlights (for review)

Highlights

- A density based link clustering algorithm is proposed to detect overlapping communities
- An updating strategy for unclassified edges is designed to assign them to the closest cluster
- Our algorithm performs better than other algorithms in the experiments
