This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- In-depth case via interviews, focus groups, meeting observation & document analysis
- We conducted 18 individual interviews, two focus groups and observed 21 meetings
- Results identified particular decision characteristics across four key agile values
- Results show characteristics' decision process, intelligence and quality challenges
- This study provides a framework to evaluate agile decision making
