Title: How People Learn while playing Serious Games: A Computational Modelling Approach

Author: Wim Westera

PII: S1877-7503(16)30448-3
DOI: <http://dx.doi.org/doi:10.1016/j.jocs.2016.12.002>
Reference: JOCS 591

To appear in:

Received date: 14-6-2016
Revised date: 18-11-2016
Accepted date: 5-12-2016

Please cite this article as: Wim Westera, How People Learn while playing Serious Games: A Computational Modelling Approach, Journal of Computational Science <http://dx.doi.org/10.1016/j.jocs.2016.12.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

How People Learn while playing Serious Games: A Computational Modelling Approach

Running title

Simulating serious gameplay

-Author information

Highlights

- Cognitive flow in serious games can be effectively modelled in computational models
- Complexity of learning from games can be understood from activity-oriented computational models
- Models explain how different user strategies in serious games produce different learning curves
