Student Perceptions of Cloud Applications Effectiveness in Higher Education

- 1- Sadaf Ashtari, Ph.D. / Eastern Michigan University
- 2-Ali Eydgahi, Ph.D. / Eastern Michigan University

Highlights

- This study investigates the post technology adoption behavior
- There is a positive correlation between the information technology self-efficacy and users' perception of the usefulness and effectiveness of cloud-based applications
- There is a positive correlation between the perceived ease of use and users' perception of the usefulness and effectiveness of cloud-based applications
- There is a negative correlation between the computer anxiety and users' perception of the usefulness and effectiveness of cloud-based applications
- The majority of the students (97.5%, n=39) were utilizing at least two forms of cloud technology and 87.5% were using three or more applications.
