This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- This paper presents a Management System for Sustainability Improvement (LIMSSI).
- It is based on the rational use of resources, while engaging and empowering people.
- We present the correlations between QMS, EMS, SRMS, OHSMS and Lean Manufacturing.
- The LIMSSI provide a structured roadmap to improve sustainability.
- The LIMSSI can render an organization more competitive and sustainable.
