This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Boundary-based selection criterion to identify uncertain data instances
- Uncertain data instances will be queried to enhance the accuracy of the classifier
- Different selection strategies to find the instances to be labelled
- Extensive experimental evaluation using different datasets
