This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Consumers with concern about food safety and higher expenditure choose supermarket.
- Price sensitive consumers reduce the purchase of safe food when the price increases.
- Women, highly educated consumers, children and elderly members have more concerns.
- Consumers' vague knowledge on who is responsible of food safety in China was observed.
