15 **Abstract:**

16 According to the National New Urbanization Plan (2014), China's national
17 urbanization rate will reach approximately 60% in 2020. Throughout the rapid process
18 of urbanization, China's energy consumption will expand at an unprecedented rate. In
19 2012, total energy consumption in China was 3.411×10^9 tons of coal equivalent
20 (tce); energy shortage is becoming increasingly serious. In this study, two future
