This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Prior to the financial crisis, bonds traded by more levered firms were more liquid
- After the crisis, bonds traded by firms with more leverage became less liquid
- The more constrained a firm is post-crisis, the lower its client trades intermediation
- Buyers' and sellers' constraints have a similar impact on bond liquidity
