Accepted Manuscript

A stochastic program with time series and affine decision rules for the reservoir management problem

Charles Gauvin, Erick Delage, Michel Gendreau

PII: S0377-2217(17)31089-5
DOI: 10.1016/j.ejor.2017.12.007
Reference: EOR 14866

To appear in: *European Journal of Operational Research*

Received date: 19 December 2016
Revised date: 6 October 2017
Accepted date: 3 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- We study the reservoir management problem with stochastic inflows
- We combine popular time series models and affine decision rules
- We extend the approach to consider heteroscedasticity
- We conduct realistic numerical experiments with encouraging results
