

Accepted Manuscript

Title: Contrasting seasonal morphological and physio-biochemical responses to UV radiation and reduced rainfall of two mature naturally growing Mediterranean shrubs in the context of climate change

Authors: D. Verdaguer, L. Díaz-Guerra, J. Font, J.A. González, L. Llorens

PII: S0098-8472(17)30313-1
DOI: <https://doi.org/10.1016/j.envexpbot.2017.12.007>
Reference: EEB 3347

To appear in: *Environmental and Experimental Botany*

Received date: 18-7-2017
Revised date: 16-11-2017
Accepted date: 5-12-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Contrasting seasonal morphological and physio-biochemical responses to UV radiation and reduced rainfall of two mature naturally growing Mediterranean shrubs in the context of climate change

Running title: UV and drought effects on two natural growing shrubs
