This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

HIGHLIGHTS

- Supply chains where information is not shared are considered;
- A Downstream Demand Strategy is evaluated;
- Analytical expressions for that strategy are derived;
- Real sales data from a major European supermarket is analysed;
- Analytical results and an empirical strategy for performance improvement are presented.
