This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The WHO European Region reported about 3% of the new TB incident cases and 25% of MDR-TB cases estimated to have occurred globally in 2014
- Over a quarter of TB cases in the EU/EEA are among foreign-born individuals
- Better understanding of TB trends at regional and sub-regional level and of the existing policies on migrants and refugees is urgently needed
- Policies and practices in force in the European countries with regards to TB and LTBI management among refugees upon arrival are described
