This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Factor-biased public capital is embedded in a small open economy model.
- Long-run crowding out if public capital augments private capital.
- Transitional crowding in for elastic labor supply.
- The elasticity of substitution between capital and labor plays a critical role.
