This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights:**

- We investigate the agency issue in a capacity planning problem under debt financing.
- We show that the agency problem will substantially affect the optimal decision.
- The agency cost can remain significant despite a low expected bankruptcy cost.
- Firms can control the agency cost with an effective financial hedging.
